Project Title:
Tadreeb – Internship & Training Opportunity Web Platform

Wireframe Design

The wireframe represents the structural layout of the Tadreeb platform. The design focuses on clarity, role-based navigation, and a clean internship marketplace interface.

User story scenarios

1. **Use Case # 1:** Student Registration

As a	New university student
I want	To register for a Tadreeb account
So that	I can apply for internship and training opportunities

Acceptance Criteria:

- When I click "Sign Up", I should see a registration form.

The form must include:

- First Name
- Last Name
- Email Address
- Mobile Number
- Password
- Confirm Password
- University Name
- Student ID
- Major
- Year (dropdown selection)
- Gender (dropdown selection)

System must validate:

- All required fields are filled
- Email format is valid
- Email is unique
- Password meets strength requirements
- Password and Confirm Password match

After submission:

- Student account is created successfully
- User can log in using their credentials

2. **Use Case # 2:** Student Login (With Activation Check)

As a	Registered student
I want	To log into my account
So that	I can access my dashboard

Acceptance Criteria:

- Login form includes:
  - Email
  - Password
- If credentials are correct AND status = Active:
  - Redirect to Student Dashboard.
- If credentials are incorrect:
  - Display: "Invalid email or password."
  - Role-based authentication must be enforced.

3. **Use Case #3:** update student Profile (Edit Profile)

As a	student
I want	to update my profile
So that	companies can evaluate my application accurately

Acceptance Criteria:

- Student can view and edit the following profile fields:
  - First Name
  - Last Name
  - Password
  - Mobile Number
  - Gender (dropdown)
  - Year (dropdown)
  - University Name
  - Major (dropdown)
  - Skills
  - Student ID
- After submission:
  - Profile updates are saved successfully
  - Updated information is reflected immediately on the profile page

4. **Use Case #4:** Browse & Filter Internship Opportunities

As a	Logged-in student
I want	To browse and filter internship opportunities
So that	I can find relevant training positions

- **Acceptance Criteria:**
- The system displays a list of available opportunities.

- Each listing shows:

  - Title
  - Company Name
  - Location
  - Duration

- Filtering options include:

  - Field
  - Location
  - Duration
  - Search functionality allows keyword search.

- If no results:

  - Display "No opportunities found."

- Filtering updates results dynamically.

5. **Use Case #5:** Filter and Search Opportunities

As a	Student
I want	to search and filter opportunities
So that	I can quickly find relevant listings

Acceptance Criteria

- Filters available: Field, Location, Duration.
- Keyword search is available (title /company).
- Filters update the results correctly.
- If no results → show "No opportunities found."

6. **Use Case #6:** Apply to an Internship

As a	Student
I want	To apply for an internship opportunity
So that	The company can review my profile

Acceptance Criteria:

- Student must be logged in and Active.
- When clicking "Apply":
  - Application status = **Submitted**
- Duplicate applications to the same opportunity are not allowed.
- Confirmation message appears.
- Application appears in "My Applications".

7. **Use Case #7:** Track Application Status

As a	Student
I want	To track my application status
So that	I know the result of my application

Acceptance Criteria:

- Student dashboard displays list of applications.
- Each application shows:
  - Opportunity Title
  - Company
  - Current Status:
    - Submitted
    - Under Review
    - Accepted
    - Rejected
  - note
- Status updates automatically reflect.
- Student receives notification when status changes.

8. Use **Case #8:** Company request to join platform

As a	Company
I want	I want to submit a request to join the platform
So that	So that I can be approved and gain access to post opportunities

Acceptance Criteria:

- Company can access "Request to Join" page from the homepage
- The form must include:
  - Company Name
  - Industry
  - Official Email
  - Phone Number
  - Website (optional)
  - Company Size
  - Founded Year
  - Location
  - HR Contact Person Name
  - Company Description
  - Reason for joining the platform
- All required fields must be validated
- After submission:
  - Request status = Pending
- Company receives confirmation message: "Request submitted successfully"
- Admin can view and review requests

9. **Use Case #9:** Admin Creates Company Account

As a	Admin
I want	to create user accounts manually
So that	authorized students and companies can access the platform with the correct role

- **Acceptance Criteria:**
- Admin dashboard includes:
  - "Add User" button.
- When the admin clicks "Add User", the system opens an **Add New User** form.
- Admin must enter:
  - First Name
  - Last Name
  - Email Address
  - Phone Number
  - Password
  - Role

- The **Role** field must allow selecting the account type, such as:
  - Student
  - Company
- System validates:
  - All required fields are completed
  - Email format is valid
  - Email uniqueness
  - Password meets minimum requirements
- After submission:
  - New user account is created successfully
  - User is added to the **Users List**
  - User details appear in the user management panel
- Admin can cancel the process by clicking **Cancel**
- System shows the created user with the assigned role in the users table.
- Only the admin can create accounts from this form.

10. **Use Case #10:** Company Login

As a	Verified company
I want	To log into my account
So that	I can post internship opportunities

Acceptance Criteria:

- Login requires:
  - Email
  - Password
- If credentials are correct:
  - Redirect to Company Dashboard.
- If incorrect:
  - Display “Invalid email or password.”
- Role-based authentication must restrict access to company features only.

11. **Case #11:** Post Internship Opportunity

As a	Verified company
I want	To post internship opportunities
So that	Students can apply

Acceptance Criteria:

- Company must be logged in.
- Required fields:
  - Title
  - Description
  - Required Skills
  - Duration
  - Location
  - Number of Seats
  - Rules
  - Image
  - subtitle
- Opportunity becomes visible to students immediately.
- Company can:
  - Edit opportunity
  - Delete opportunity
- Opportunity must be linked to company profile.

12. **Use Case #12:** Company Reviews Applicants + Updates Status

As a	Verified company
I want	to review applicants and update their status
So that	I can select the best candidates

Acceptance Criteria

- Company can view applicants per opportunity.
- Company can update application status: Under Review, Accepted, Rejected.
- Student receives notification when status changes

13. **Use Case #13:** Admin Manages Users & Listings

As a	admin
I want	to manage users and remove inappropriate listings
So that	the platform remains safe and organized

Acceptance Criteria

- Admin can manage students and companies.
- Admin can remove inappropriate listings.
- Admin can deactivate companies if needed.

14. **Use Case #14:** Admin Views Analytics Dashboard

As a	admin
I want	to view system analytics
So that	I can monitor usage and growth

Acceptance Criteria

- Admin dashboard shows: total users, total opportunities, total applications.
- Dashboard shows application trends (basic charts/tables).
- Data updates correctly.
