Project Title:

Tadreeb – Internship & Training Opportunity Web Platform

Date	Version	Description	Author/s

Wireframe Design

The wireframe represents the structural layout of the Tadreeb platform. The design focuses on clarity, role-based navigation, and a clean internship marketplace interface.

[Layout, Navigation, Content, Interaction]

Home Page (Public Page)

Layout:

- Navigation bar:
  - Logo (Tadreeb)
  - Students
  - Companies
  - About
  - language
- Hero section:
  - Short description of the platform
  - Action button
  - images
- Footer:
  - Contact us
  - social media

Student page

Layout:

- Navigation bar:
  - Logo (Tadreeb)
  - Login / sign in
  - Edit Profile + status
  - Language
- Main Area:
  - See all programs
  - Search bar
  - Filter

Interaction:

- Students can browse, filter, apply, and track status from its profile

---

Company Dashboard

Layout:

- Navigation bar
  - Name of page
  - Search bar
  - profile
- Sidebar:
  - Dashboard
  - Post Opportunity + Manage Opportunities
  - View Applicants or participants
  - Logout
- Dashboard Area:
  - List of posted internships and participants
  - New students
  - Analytics

Interaction:

- Companies post internships.
- Review applicants.
- Update application status.

Admin Dashboard

Layout:

- Navigation bar
  - Name of page
  - Search bar
  - profile
- Sidebar:
  - Dashboard
  - Post Opportunity + Manage Opportunities
  - View Applicants or participants
  - Users
- Users Area:
  - Can add new account with its role
  - Edit or view any profile
- The Rest of Pages and content here:

User story scenarios

1. **Use Case # 1:** Student Registration

As a	New university student
I want	To register for a Tadreeb account
So that	I can apply for internship and training opportunities

Acceptance Criteria:

 When I click “Sign Up”, I should see a registration form.

 The form must include:

- Full Name
- Email
- Password
- Confirm Password
- University
- Major

 The system must validate:

- Email format
- Strong password requirements
- Matching passwords

 The email must be unique (no duplicate accounts).

2. **Use Case # 2:** Student Login (With Activation Check)

As a	Registered student
I want	To log into my account
So that	I can access my dashboard

Acceptance Criteria:

 Login form includes:

- Email
- Password

 If credentials are correct AND status = Active:

- Redirect to Student Dashboard.

 If credentials are incorrect:

- Display: “Invalid email or password.”

 Role-based authentication must be enforced.

3. **Use Case #3:** Student Profile Setup (Edit Profile + Upload CV)

As a	student
I want	to complete my profile and upload my CV
So that	companies can evaluate my application

Acceptance Criteria

- Student can edit profile fields: major, skills, GPA, bio.
- Student can upload a CV (PDF/doc).
- File upload is secure (restricted access).
- System confirms upload success and shows the uploaded file name.
- Student can replace/update CV.

4. **Use Case #4:** Browse & Filter Internship Opportunities

As a	Logged-in student
I want	To browse and filter internship opportunities
So that	I can find relevant training positions

Acceptance Criteria:

- The system displays a list of available opportunities.
- Each listing shows:
  - Title
  - Company Name
  - Location
  - Duration
  - Paid / Unpaid
- Filtering options include:
  - Field
  - Location
  - Duration
  - Paid / Unpaid
- Search functionality allows keyword search.
- If no results:
  - Display “No opportunities found.”
- Filtering updates results dynamically.

5. **Use Case #5:** Filter and Search Opportunities

As a	Student
I want	to search and filter opportunities

So that	I can quickly find relevant listings

Acceptance Criteria

- Filters available: Field, Location, Duration, Paid/Unpaid.
- Keyword search is available (title/skills/company).
- Filters update the results correctly.
- If no results → show "No opportunities found."

6. **Use Case #6:** Apply to an Internship

As a	Student
I want	To apply for an internship opportunity
So that	The company can review my profile and CV

Acceptance Criteria:

- Student must be logged in and Active.
- When clicking "Apply":
  - System verifies CV is uploaded.
- If no CV:
  - Prompt student to upload CV.
- After successful submission:
  - Application status = **Submitted**
- Duplicate applications to the same opportunity are not allowed.
- Confirmation message appears.
- Application appears in "My Applications".

7. **Use Case #7:** Track Application Status

As a	Student
I want	To track my application status
So that	I know the result of my application

Acceptance Criteria:

- Student dashboard displays list of applications.
- Each application shows:
  - Opportunity Title
  - Company
  - Current Status:
    - Submitted
    - Under Review
    - Accepted
    - Rejected
- Status updates automatically reflect.
- Student receives notification when status changes.

8. **Use Case #8:** Admin Creates Company Account

As a	Admin

I want	To create company accounts manually
So that	Only verified companies can access the platform

Acceptance Criteria:

- Admin dashboard includes:
  - "Create Company Account" button.
- Admin must enter:
  - Company Name
  - Official Email
  - Temporary Password
  - Industry
  - Company Description
- System validates:
  - Email uniqueness
- After submission:
  - Account status = Active
- System sends login credentials to company email.
- Company can log in immediately after account creation.
- Company cannot change its core identity fields (e.g., company name) without admin permission.

9. **Use Case #9:** Company Login

As a	Verified company
I want	To log into my account
So that	I can post internship opportunities

Acceptance Criteria:

- Login requires:
  - Email
  - Password
- If credentials are correct:
  - Redirect to Company Dashboard.
- If incorrect:
  - Display "Invalid email or password."
- Role-based authentication must restrict access to company features only.

10. **Case #10:** Post Internship Opportunity

As a	Verified company
I want	To post internship opportunities
So that	Students can apply

Acceptance Criteria:

- Company must be logged in.
- Required fields:
  - Title
  - Description
  - Required Skills
  - Duration

    - Location
    - Number of Seats
    - Paid / Unpaid
- Opportunity becomes visible to students immediately.
- Company can:
    - Edit opportunity
    - Delete opportunity
- Opportunity must be linked to company profile.

11. **Use Case #11:** Company Reviews Applicants + Downloads CV + Updates Status

As a	Verified company
I want	to review applicants and update their status
So that	I can select the best candidates

Acceptance Criteria

- Company can view applicants per opportunity.
- Company can download student CVs.
- Company can update application status: Under Review, Accepted, Rejected.
- Student receives notification when status changes

12. **Use Case #12:** Admin Manages Users & Listings

As a	admin
I want	to manage users and remove inappropriate listings
So that	the platform remains safe and organized

Acceptance Criteria

- Admin can manage students and companies.
- Admin can remove inappropriate listings.
- Admin can deactivate companies if needed.

13. **Use Case #13:** Admin Views Analytics Dashboard

As a	admin
I want	to view system analytics
So that	I can monitor usage and growth

Acceptance Criteria

- Admin dashboard shows: total users, total opportunities, total applications.
- Dashboard shows application trends (basic charts/tables).
- Data updates correctly.
